April 25, 2014

Dear Sir/Madam,

I am pleased to bring to your attention to the availability of grant money to offset initial-costs of implementing electronic citations. These funds were appropriated to the Supreme Court during the recent legislative session from the state general funds account. The Supreme Court budget for (state) FY 2015-2016 contains \$1,500,000 in grant money to be distributed to local governments in Wyoming.

Applicants for grant funds should submit the attached application and certificate of local approval, along with a written project narrative to the Supreme Court Administrator. In the narrative, clearly address the following goals:

- How the project implements electronic citation issuance capability by County Sheriffs and local Chiefs of Police;
- How the project enables the successful electronic filing/submission to the local court(s) of jurisdiction and/or the Wyoming eCitation Repository Gateway (WyCite Gateway);
- How the project incorporates matching funds from local, state or national sources.

For electronic copies of the grant application and other up to date information please visit <https://www.courts.state.wy.us/EcitationGrant.aspx>

Please feel free to contact me at (307) 777-6130 or email sdreher@courts.state.wy.us if you have any questions.

Sincerely,

A handwritten signature in blue ink, appearing to read "Steven Dreher".
